

## *Executive leadership update*

**Dear senior leaders,**

Further to last week's announcement letting you know about Deb Gordon's departure from AHS, I wanted to share an update with you on interim leadership.

Sean Chilton, Vice President, People, Health Professions & Information Technology, will provide interim executive leadership for the Clinical Operations, EMS and Primary Care teams alongside dyad physician partners Dr. Sid Viner, Vice President & Medical Director, Clinical Operations and Dr. Peter Jamieson, Interim Associate Medical Director, Clinical Operations.

Sean brings significant clinical and leadership experience to this role, including previous roles as the Chief Zone Officer South Zone, as well as several clinical leadership positions while working in Grande Prairie and across Alberta.

Sean and Deb are collaborating on transition this week and I would like to thank them both.

Susan McGillivray has agreed to backfill Sean's role leading the People and Health Professions teams. Natalie McMurtry will take on executive leadership of the Sustainability Program moving forward. Sean will continue to have responsibilities for IT and Connect Care.

Please share this information with your team members and as you do so, please also share last week's announcement on Deb's departure (see below), as appropriate.

Sincerely,

**Mauro Chies**

AHS President and CEO
