

'I had the opportunity to work with Jeremy in the Legislature and saw how hard he worked to help his constituents in need with compassion and expediency.

When not in Edmonton, he was always at the doors so that residents knew that they had an accessible MLA; one who never took their support for granted and brought their concerns right to caucus. I know this level of commitment to serve would make him an excellent MP, and I urge all conservative members of Calgary Signal Hill to support Jeremy.'
